PROCEEDINGS

THE COURT: So by the agreed order that

3 was entered by the Court previously, there are

- 4 eight motions scheduled for today. I don't know
- 5 if there was any discussion on the order of
- 6 things. It seems to me a lot of issues tend to
- 7 overlap with each other, at least of the concerns
- 8 raised and some of the issues discussed seem to
- 9 overlap a little bit, if not a lot. So I don't
- 10 need to have repetitive arguments if they apply,
- 11 as we discussed previously or however that works.
- I think what's easiest for me is doing one 13 motion at a time in favor of, opposed to, and that 14 sort of thing, keep them sequestered, if you will, 15 compartmentalized, and then we'll go to the next 16 one. So if you'd like, we can go in order of what 17 you all put in the agreed order if there's no 18 other suggestion.
- MR. McDONALD: Your Honor, good morning, 19 that would be the best way to approach this, and 20 this is Patrick McDonald, I'm local counsel for 21 the plaintiffs in this matter. I think from an 22 introductory perspective, I think the issues kind

THE COURT: All right. Let me hear from 1

-- who's going to be arguing on behalf of Compass?

- MR. STERN: Your Honor, this is Stephen
- Stern, I'll be arguing on behalf of Compass. Just
- to be clear, Ms. Harris represents another
- defendant in this case.
 - THE COURT: I recognize that.
- 8 MR. STERN: I did obviously want to give
- 9 deference to how the Court wants to handle this,
- 10 but as you noted, so many of the issues do
- 11 overlap, and it seems that in certain respects a 12 lot of the arguments will be repetitive in certain
- 13 ways, but some arguments are separate and
- 14 distinct. I do have some notes prepared by
- 15 motion, but at the same time, some of the motions
- 16 necessarily overlap so it's hard to keep them all 17 separate and distinct.
- You know, I was trying to think of a way
- 20 what would be the most efficient way of doing it,
- 21 and I'm not sure there is necessarily a clear path
- 22 here, but I do think maybe if there is each of the
- 1 of fall into three categories. There's a
- 2 scheduling set of issues, there's a set of
- 3 discovery issues, and within the discovery issues
- 4 there are kind of sub issues of when things are
- 5 going to be done, but also separate from that
- 6 there's an issue of entry of a protective order,
- 7 which sort of is I think the kickoff for a lot of
- 8 what happens on the discovery side.
- So I'm prepared -- as local counsel I 10 normally wouldn't be the one arguing, but I'm
- 11 prepared for the plaintiffs to argue the
- 12 scheduling side of things and -- and why certain
- 13 things should be scheduled when. Mr. Lawrence,
- 14 whose camera and microphone appears to be off
- 15 right now, I'll look into that, but he's going to
- 16 be arguing the substantive discovery issues on 17 that.
- And on to the extent the Court wants to 18 19 hear introductory remarks from anybody, I'm
- 20 prepared to start in that regard. But whatever 21 order you think is appropriate, I think we'll go
- 22 with that.

- 1 parties can be stating what they're, you know,
- 2 significance of the factual background and then
- going each of the different motions and asking for
- 4 the different forms of relief that exists. That
- 5 might make it a little more streamlined and
- 6 perhaps shorten the hearing, but I can't be sure 7
- of that.
- 8 THE COURT: Okay. It seems to me
- 9 Ms. Harris has a unique circumstance in as much as
- 10 she's appearing specially to have a matter of
- 11 personal jurisdiction adjudicated by the court on
- 12 Mr. White's case, the defendant. And it strikes
- 13 me that that might be the one we handle first.
- 14 Only because there's a lot of discovery flowing
- 15 and maybe that's the way we treat it as we -- that
- 16 appears to me -- so my reaction to some of these
- 17 motions was -- especially with regard to expedited
- 18 hearings or setting hearings, what struck me
- 19 initially was that certainly Ms. Harris's motion
- 20 regarding personal jurisdiction ought to be 21 attended to early.
- 22 And then also there is several other

Conducted on March 11, 2021

1 motions, defense motions, that are potentially

- 2 dispositive that ought to be managed as well
- 3 because if those are -- if those motions are
- 4 granted, the case is ended. So those kinds of --
- 5 but then again, I have to ask you, Mr. Stern,
- 6 whether you're seeking a jury with the plea in bar
- 7 and that kind of thing, which may change the
- 8 scheduling of it.
- But initially my reaction to it is I think 10 we have to get some of these defense motions
- 11 heard. And especially Ms. Harris's motion, it
- 12 seems to me. Maybe we can start if you all don't
- 13 mind. Because I know that there was some kind of
- 14 an agreement in here that Ms. Harris's motion
- 15 should be set on January 29th, and it wasn't set
- 16 on January 29th, it was kicked over to this date 17 bundled with everything else.
- And it strikes me that's hanging out there
- 19 by itself and can be resolved by setting a date
- 20 today. So unless there's a reason I shouldn't 21 hear that first, I kind of like to get to that
- 22 first.
 - MR. STERN: From Compass's perspective
- that makes perfect sense, but I'll leave it to
- 3 Ms. Harris to speak.
- THE COURT: Ms. Harris, are you okay with 4
- 5 that?
- 6 MS. HARRIS: Yes, thank you. I was going
- 7 to suggest that, Your Honor, because I do believe
- 8 it's a discrete issue that sits apart from
- 9 everything else.
- 10 THE COURT: Mr. McDonald?
- MR. McDONALD: I don't think it's truly
- 12 discrete. I understand the Court's point. I
- 13 think you've read in the papers probably, our
- 14 position is really that we've been trying to get
- 15 the hearings set on a number of these motions.
- 16 All the motions that Judge Fiore ordered to be
- 17 heard back in September for about six and a half 18 months and get dates, we just haven't gotten any
- 19 traction on any of them.
- THE COURT: We're all in agreement. Let's
- 21 pick some dates. How long is your motion to be on 22 this motion to dismiss for lack of personal

- 1 jurisdiction?
- 2 MS. HARRIS: I expect needing three hours
- for an evidentiary hearing, Your Honor.
- 4 THE COURT: Okay. So it's evidentiary.
- And, Mr. McDonald, how -- do you think three hours
- is an accurate time estimate?
- MR. McDONALD: I do. I don't think we
- 8 need more than three hours.
- 9 THE COURT: All right. A bench trial,
- 10 three hours, and I'm going to start look at my
- 11 calendar. Okay? And we're going to get this
- 12 docketed right now.
- 13 MS. HARRIS: Thank you, Your Honor. We've
- 14 just been trying to do that for a number of
- 15 months.
- 16 THE COURT: Sure. I heard that, and we're
- 17 going to take care of that today. What month were
- 18 you thinking of, folks?
- 19 MS. HARRIS: What is the Court's earliest
- 20 available date for a three-hour hearing?
- THE COURT: Let me look for you. 21
- 22 April 5th.

10

- MS. HARRIS: For a briefing schedule, Your
- Honor, to work backwards from there, let's see, we
- would like to be able to have a reply brief.
- 4 THE COURT: Before we get there,
- Mr. McDonald, are you available?
- 6 MR. McDONALD: I -- let's see, April 5th,
- 7 I -- I have my calendar up. I'm available, I have
- 8 to defer to Mr. Lawrence on his availability for
- 9 that day.
- 10 MR. LAWRENCE: Yes. I'm actually out of 11 town on the 5th. I apologize.
- THE COURT: Is it anything you can adjust 12 13 or no?
- MR. LAWRENCE: I don't believe so, Your 14
- 15 Honor. It's a pre-scheduled family trip.
- THE COURT: Okay. Are you out that entire 16 17 week?
- MR. LAWRENCE: No, Your Honor. Actually, 19 I could come back that evening early so I could be 20 back --
- 21 MS. HARRIS: Your Honor, I don't need make 22 Mr. Lawrence return early from his vacation. I'd

1 be happy to do the week of April 12th. That would

be fine with me.

THE COURT: Let me see if I can find

4 something for you all. It's going to be a

5 squeeze, but we can shoot for April 12th. And

6 then Ms. Harris, you mentioned a briefing

schedule?

MS. HARRIS: Yeah. Your Honor, looking at

9 it, if we did April 12th and had a reply brief on

10 the 5th, their opposition on the 29th, that means

11 our brief is due next -- on the 22nd. So

12 actually, that's fine.

13 THE COURT: Okay. You asked for the

14 earliest date, and that's the earliest date,

15 apparently. So you want to have your brief filed 16 on 3/22/21 close of business, right, and then the 17 opposition brief is due when?

MS. HARRIS: With the opposition due on 19 the 29th and reply on the 5th.

THE COURT: Okay. 4/5. Is everyone in 20

21 agreement with that briefing schedule?

MR. LAWRENCE: Your Honor, this is an

1 evidentiary motion with respect to the discovery

2 you granted, so I would suggest more than a week

3 would be appropriate between the motion being

4 filed and the opposition just given the amount of

5 work.

THE COURT: The brief is going to be on 6

7 legal matters, it's not going to be evidentiary.

8 The Court is going to make factual findings of its

9 own; right?

10 MR. LAWRENCE: Your Honor, you granted 11 discovery as to personal jurisdiction. It will be 12 factual in terms of -- I assume they're going to

13 use the discovery we put forth.

THE COURT: I know, but what is the point 15 you're trying to making about the one week 16 response?

MR. LAWRENCE: Just that it would be -- to 18 have five days is -- I would just suggest to Your 19 Honor that the opposition -- I'm sorry, the motion 20 be filed maybe ten days before instead of on the 21 22nd, maybe move it back?

22 THE COURT: Today is the 11th; right? And 1 you want them to file it in a week?

2 MR. LAWRENCE: It's actually --

3 THE COURT: Is that what you're saying,

4 the 18th?

5 MR. LAWRENCE: Yes, Your Honor.

THE COURT: Ms. Harris, can you do it by 6

the 18th?

MS. HARRIS: How about the 19th? And that

9 gives them the weekend with it.

10 MR. LAWRENCE: That's fine.

THE COURT: Okay. 19th, 29th, 5th; right? 11

12 MS. HARRIS: Yes. Your Honor, as far as

13 pages, could we have 25 pages for opening and 5 14 for reply?

THE COURT: What are you all putting in 15

16 these briefs? Factual stuff?

MS. HARRIS: Ours is primarily legal

18 argument, as Your Honor --

THE COURT: I don't need 25 pages.

MS. HARRIS: Well, legal arguments to 20

21 flesh out the facts of the case and why even under

22 their allegations there's no personal

1 jurisdiction. But if Your Honor does not want me

2 to do so many pages --

3 THE COURT: The judge can decide

4 afterwards that post hearing briefs are

5 beneficial, but you have to put the evidence on

6 first before the Court can consider combining

7 those factual documents or testimony I guess it

8 would be. This is anticipatory. I'd say keep it

9 within the briefing limitations we have, and if

10 afterwards there's supplemental briefing that the

11 Court wants to hear and you feel you need to

12 provide it and the Court agrees, then that's fine.

13 But I don't want to take that up -- I think this

14 case by -- let me just show you, double-sided.

15 Ya'll don't need more pages, okay?

16 MS. HARRIS: All right, Your Honor.

THE COURT: Let's try to keep it tidy. 17

18 Three hours hearing with the judge, bench trial,

19 on April 12th with the briefing schedule as

20 discussed. And, Ms. Harris, I'm going to task you

21 with writing an order just simply stating that.

22 And that's motion number five in my book, so

1 that's resolved, okay?

MS. HARRIS: Thank you. And is that at

10:00 a.m., Your Honor?

THE COURT: Yes, ma'am.

5 MS. HARRIS: Okay.

6 THE COURT: Okay. So we'll have a

separate order just for that one if we can. So

let me look at the list of motions here and decide

9 which one I think I'll do next.

10 I would like to hear the eighth motion in

11 this list of motions, which is plaintiff's motion 12 to quash or modify defendant Compass Marketing's

13 attorney issued subpoena duces tecum or for entry

14 of a protective order, okay? So this comes on

15 plaintiff's motion, Mr. McDonald.

MR. McDONALD: Your Honor, yes.

17 Mr. Lawrence will be arguing that.

THE COURT: All right. Mr. Lawrence. 18

19 MR. LAWRENCE: Thank you. The reason we 20 filed the motion to quash and subpoena, they're 21 seeking personal banking information regarding 22 plaintiffs Michael and Daniel White (inaudible.)

THE COURT: I'm sorry, Mr. Lawrence,

you're breaking up.

3 MR. LAWRENCE: I apologize for the

4 technical difficulties. I tried to game this

beforehand to make sure the technology works.

6 I'll try to speak loudly. Just let me know if you

can't hear me or anybody else on the phone can't.

We filed this motion to quash because the

9 defendant -- the defendant Compass is seeking 10 personal financial information and banking

11 information concerning the plaintiffs, which have

12 no bearing on the allegations in the complaint, no

13 bearing on the pending motions that Your Honor

14 limited discovery to. That's pure and simple the

15 argument.

The response back to us is that there 17 somehow may be relevant information and it may be

18 relevant to some allegations that are being made 19 in the discovery disputes. The issue with that,

20 though, is that Compass has not filed any

21 counterclaims against my client, so these are not

22 live issues. And so it's a pure and simple

1 fishing expedition meant to annoy, harass, and

impede the progress of this case.

THE COURT: All right. Mr. Stern.

4 MR. STERN: Your Honor, there's a couple

of arguments as to why this motion is without

6 merit. First, it's untimely. They are required

7 to file the motion promptly. The subpoena was

8 served on them on January 12th. The subpoena

9 required response by January 27th. There was a

10 preliminary response and M&T Bank did ask for an

11 extension of time to respond to this other

12 information, of course wanting to give them

13 professional courtesies, we gave that courtesy.

And then on February 3rd is when the

15 motion to quash was filed. If we had held M&T

16 Bank to a strict compliance date, this motion

17 would never even been filed. So plaintiff should

18 not get the benefit of that. Beyond that, the 19 merits of the argument are pretty clear. They're

20 saying this is some fishing expedition and we

21 haven't filed counterclaims yet. Of course we

22 haven't filed counterclaims yet because we're not

18

1 subject to the jurisdiction of this Court, we

2 don't want to waive that argument. But part of 3 the defenses to the claims that are being made,

and part of defenses to the motions that are at

issue, which is Court ordered discovery on the

pending motions, one of which is a motion to

appoint a custodian.

8

Well, plaintiff are claiming that this

9 company is being mismanaged. Part of the

10 relevance to that defense is the money that

11 they've stolen. We've put evidence before this

12 Court of the bank accounts they've opened in

13 Compass Marketing's name. We've put before this

14 evidence that there's a secret account at

15 Community First Bank where it is essentially in

16 Compass Marketing, but the address that was used

17 on that account, as we've shown on the document,

18 bank card, the signature card that was submitted

19 to the Court was actually Michael White's home 20 address.

21 And to even get those documents, we

22 couldn't get them. We had to subpoena those

6 (21 to 24)

Conducted on March 11, 2021

1 records. How is that's a proper Compass Marketing 1

2 account if we had to subpoena those records? That

- 3 shows they're taking money and hiding them. We
- 4 also showed the checks that they were writing to
- 5 themselves from that account going into their
- 6 personal bank accounts.
- Furthermore, amongst other things, we've
- 8 added -- there's this \$65,000 check signed by
- 9 Michael White, payable to Daniel White with the
- 10 notation on it, final payments to James DePaul and
- 11 former employees. Why is that not coming from the
- 12 operating account of Compass Marketing? Two 13 months earlier there was a \$10,000 check made to
- 15 not from a Compass Marketing account.
- You have to ask yourself, why would that
- 17 be the case? If these are legitimate, they should 18 be all coming to Compass Marketing's operating
- 19 account. At a minimum, at the very at least it
- 20 suggests that Daniel White was keeping some of
- 21 that money even if it was a legitimate business,
- 22 which it's not. And most of the money from that
- 1 secret account was being deposited to Michael
- White's personal account.
- 3 We've put forth plenty of evidence on
- 4 that, plus we've also shown the wives taking money
- from this company even though they've never worked
- 6 there. There's also these loans, supposed loans,
- 7 and you can see the notations on some of the
- 8 checks, some of them, but not all of them, some of
- 9 the checks, I think it was an LTC loan from
- 10 Compass, what they wrote on it.
- Well, if it was a legitimate loan, which
- 12 Compass contents it's not, we should be seeing a
- 13 flow of money that's -- if it's a legitimate loan
- 14 from their personal accounts into Compass
- 15 Marketing's account. They don't exist. And
- 16 where's the money going? We have to be able to
- 17 see where the money is going.
- These plaintiffs are asking this Court to
- 19 dissolve this company, and Compass Marketing has
- 20 said that they're stealing one from the company.
- 21 We are entitled to get discovery to know where the
- 22 money is going and what they've taken from it to

- show this claim is without merit.
- THE COURT: Okay. Anything in rebuttal,
- Mr. Lawrence? And then I will make a decision.
- MR. LAWRENCE: Yes, Your Honor. 4
- Everything about -- are allegations relating to
- 6 the historical facts. They're all out of context.
- And we would dispute them, Your Honor, but they
- 8 have nothing to do with the pending motions, which
- 9 is whether a custodian pendente lite should be 10 appointed for ongoing considerations.
- Mr. Stern is pointing to no information
- 12 showing that my clients are in control of this
- 13 company or in control of bank accounts or that
- 14 Chick DePaula again drawn on Dan White's account, 14 there's some risk of ongoing harm to the company,
 - 15 which is the entire issue noted in the pendente
 - 16 lite. Instead what he's doing is he's trying to
 - 17 bring a counterclaim through discovery, and it's
 - 18 not appropriate, Your Honor.
 - And it shows where this case is spiraling
 - 20 out of control, and it's a consistent theme as we
 - 21 go through the discovery where it's really just
 - 22 sabotage type discovery and it's not actually
 - 22
- getting to the heart of the matters to move this
- case forward. The M&T subpoena is specifically
- designed just to get personal information
- regarding our clients that have nothing to do with
- the live allegations in this complaint, nothing to
- do with the pending motion, and again,
- particularly nothing to do with the custodian
- pendente lite, which is what he's trying to point
- 9 to.
- 10 MR. STERN: Your Honor --
- THE COURT: As we all know, these matters 11
- 12 can become very intertwined, and whether somebody
- 13 is trying to assert a defense or explain their
- 14 position and they end up in a counterclaim or not,
- 15 it's still relevant to the question of what's
- 16 actually happening.
- Seeking a custodian for the business is a
- 18 finding essentially that the business is not
- 19 thriving or not doing -- operating quickly. Those
- 20 are strong allegations. I read the complaint.
- 21 These are strong allegations. They have a very,
- 22 very different view of that. So at this point the

24

7 (25 to 28)

Conducted on March 11, 2021

1 only thing I would say is that if they're having

- 2 to get materials that from their point of view are
- 3 legitimate Compass Marketing business and they
- 4 have to get it through this method, it strikes me
- 5 that, again, this goes back to the other issues
- 6 you all are arguing about, there's not been a free
- 7 flow of information in discovery. So that needs
- 8 to be done.
- And my view on discovery -- and I think 10 you'll be hearing this probably throughout -- the
- 11 more you share, even with appropriate protections
- 12 so it's not disseminated widely and
- 13 inappropriately, is the best way for everyone to
- 14 see what the other side is saying and then draw
- 15 whatever conclusions you think you need to from
- 16 those disclosures. And this is another one of 17 those.
- I don't think this is a mere fishing 18
- 19 expedition. I've heard enough from Mr. Stern to
- 20 conclude that it is related, sufficiently related
- 21 to allow them to view it and to use it as they
- 22 wish in this case. The allegations are coming,
- 1 and they're very powerful allegations. So they're
- 2 entitled to defend against that. And if these
- 3 materials bear on that, which I think they
- 4 potentially could -- because remember, discovery
- 5 is not necessarily only admissible information,
- 6 discovery is allowed for relevant materials or
- 7 that might lead to admissible information. And so
- 8 that's -- you know, it's further removed from
- 9 straight admissibility in court.
- 10 And so my ruling today is that the motion
- 11 to quash would be denied, and that -- and then I'm
- 12 going to put a pin in the protective order because
- 13 I think we're going to come to some discussion
- 14 about protecting certain information that may
- 15 touch upon this. So I'm going to hold that
- 16 holding in advance. And I think I'd like to wrap
- 17 it all into one ruling on the protective order.
- But at this point the motion to quash is
- 19 denied. So Mr. Stern can draft an order denying
- 20 the motion to quash with obviously Mr. Lawrence's
- 21 exception noted. And then once I rule on the
- 22 protective order piece on that, then we can

- 1 include that.
- I think I'd like to have you all discuss
- with me motions for expedited hearings, okay?
- 4 Really this is more of a scheduling motion than
- 5 merely whether it's expedited. And there are a
- 6 number of motions -- and I just want to make sure
- 7 I have this straight. This is my motion three.
- 8 The request here is to speedily docket the
- 9 plaintiff's motion to -- custodian pendente lite,
- 10 the plaintiff's motion to disqualify counsel,
- 11 defendant Compass's motion to dismiss, and
- 12 defendant Compass's plea in bar; right? Those are
- 13 the four motions that are in plaintiff's motion; 14 right?
- 15 MR. McDONALD: Your Honor, Patrick
- 16 McDonald here for plaintiffs. I think the motions
- 17 we were seeking to expedite are the plaintiffs
- 18 motions, and I think this goes back to the
- 19 procedural history of the case going all the way
- 20 back to Judge Fiore's order from
- 21 September 29th, 2020.
- At that time we were before the Court, I
- 26 1 think Mr. McEvoy was present for that hearing, and
 - there was an argument over which motions should go
 - first, and Judge Fiore's order says basically,
 - 4 well, you guys pick dates, and the presiding judge
 - will hear -- tell you what order those motions are
 - 6 going to go in on those dates; right? Kind of
 - pick two days or three days together, and then the
 - presiding judge will decide the order. So that's
 - 9 kind of how it went.
 - 10 And meanwhile, that was in September.
 - 11 Meanwhile we're trying -- discovery starts, it's
 - 12 related to these pending motions, and discovery
 - 13 totally bogs down. And what ends up happening,
 - 14 all the while this pendente lite relief and this
 - 15 motion to disqualify, which are important
 - 16 preliminarily issues to protect the company and to
 - 17 ensure this matter is being heard in the proper
 - 18 fashion are just lingering and lingering.
 - 19 Meanwhile, and we've been -- I believe
 - 20 there's an email attached to our motion which says
 - 21 in December we're saying, hey, let's get dates for
 - 22 all this. And in response we get no dates from

1 anyone, in particularly Compass's counsel. What

- 2 we get is conversation about anything else other
- 3 than setting --
- THE COURT: Hang on a minute. I read all
- that. We're here to pick dates; right?
- MR. McDONALD: I agree, and we're here to pick dates.
- THE COURT: That's what we're here to do.
- 9 So I understand you've had your difficulties, all
- 10 right, but -- and I'm not entirely clear how
- 11 things were expressed in that hearing in
- 12 September, but I will make it clear to you that
- 13 we're going to schedule things that need to be
- 14 scheduled, and we'll do it today, just like we
- 15 took care of Ms. Harris's motion, we'll take care 16 of this. Okay?
- But I see these dispositive motions to be 18 important to handle as well, because obviously the 19 more we can -- normally what happens in these
- 20 cases, okay, is you get a demurrer, the demurrer
- 21 and plea in bar and we knock those out, and then 22 we can move on or not. The case maybe ended;
- 1 right? So it's important to get some of these
- 2 preliminary matters squared away.
- Asking the Court to schedule -- I
- 4 understand, you know, this case was filed 5 originally in 2019, certain motions were granted
- 6 necessitating an amendment, right? The amendment
- 7 was filed, and then there was service after that,
- 8 a period of time after that, and the responsive
- 9 pleadings came in. Pleas in bar, motions to
- 10 dismiss, personal jurisdiction complaints.
- So yes, we do need to have discovery 12 moving forward, it can be on parallel tracks. I
- 13 realize this has caused a lot of drama for you
- 14 all, I get it, but it seems like we have to get
- 15 these dispositive motions clarified now and get 16 those them worked out.
- So what I need to understand at least 18 preliminarily before we jump into what's being 19 scheduled when, is there going to be a jury demand 20 for the plea in bar? Because I didn't read the
- 21 plea in bar, I had plenty of other things to read,
- 22 so I don't know what the issue is, and so I want

- 1 to know from you all whether there's a jury
- demand, because that will make a difference. And
- of course I need to know on each of these motions
- 4 what you all think the duration of each of these
- is going to be.
- So having said, the plea in bar is my
- 7 first question, because I think that does matter
- 8 whether we can schedule it sooner or later with a
- 9 jury or not.
- 10 MR. STERN: Your Honor, can I first
- 11 address the motion to dismiss? Because I think
- 12 that would need to come before the plea in bar.
 - THE COURT: Maybe, but I also want an
- 14 answer to the question about the plea in bar.
- MR. STERN: We're happy to go with a bench 16 trial. It's a statute of limitations defense is
- 17 what that is.
- THE COURT: Okay. But as I read the
- 19 complaint, what was alleged was that there was so
- 20 much fraudulent conduct that it was basically
- 21 obfuscated and screened discovery of the behavior
- 22 so far down the road, and it was specifically

30

- 1 addressed in the complaint. So there's going to
- be a lot of evidence on that issue, obviously,
- 3 what did you know? When did you know it? And so
- on. So there's going to be a factual
- determination, presumably. So Mr. McDonald or
- Mr. Lawrence, is there a demand for a jury on the
 - plaintiff's side?
- MR. LAWRENCE: Your Honor, plaintiffs have
- 9 not filed a demand for a jury now. Procedurally
- 10 they have that option up to the point of the
- 11 hearing is my understanding, Your Honor. I have
- 12 to speak to Mr. McDonald regarding --
- THE COURT: Well, there's no demand now, 13
- 14 so how do I schedule it?
- 15 MR. LAWRENCE: Understood, Your Honor.
- 16 I'm just saying that I haven't forced my clients
- 17 to make that decision now because of the knowledge
- 18 of the procedure. My inclination is we go ahead
- 19 and schedule it nonetheless as if it was not a
- 20 jury trial, and we would inform the Court as soon
- 21 as possible if that's not the case.
- 22 THE COURT: Okay. And the motion to

Conducted on March 11, 2021

33

- 1 dismiss, what's the duration of that, do you
- 2 think?
- 3 MR. STERN: Evidentiary hearing. It's a
- 4 straight legal argument. It's based on a lack of
- 5 jurisdiction, failure to name a necessary party
- 6 and forum non conveniens. And so that -- our
- 7 position all along is that should be heard shortly
- 8 after John White's motion is -- on personal
- 9 jurisdiction is heard. I think the most
- 10 appropriate thing would be for that to be
- 11 scheduled approximately a week, somewhere shortly
- 12 thereafter so that that can be heard. That might
- 13 be dispositive of the entirety of the case, which 14 we --
- 15 THE COURT: And so how much time do you 16 think that would require? An hour?
- 17 MR. STERN: Probably an hour would 18 probably be sufficient to make.
- 19 THE COURT: As long as there's no 20 testimony.
- MR. McDONALD: Judge, I think we disagree 22 that that's not an evidentiary hearing, because
- 1 forum non conveniens is essentially, it's a
- 2 factual venue jurisdictional type of argument.
- 3 And I don't think we agree that there's going to
- 4 be no evidence in that case. I don't think it's
- 5 pure legal argument.
- 6 And I would go back to Judge Fiore's order
- 7 of basically we're going to hear all these things
- 8 at once. You know, and the presiding judge will
- 9 set the order of when that's going to be. I hear
- 10 you say you want to schedule -- you kind of agree
- 11 with that in a way, which is you want to put these
- 12 other ones there. And so what I would say, Your
- 13 Honor, is I think this is going to be an
- 14 evidentiary matter the same as the others. So I
- 15 don't know that there's a reason to prioritize
- 17 MR. STERN: Your Honor --
- 18 MR. McDONALD: -- that's pure legal 19 argument.
- THE COURT: We can schedule it. I'm going 21 to decide which ones go in what order now because
- 22 ya'll can't seem to do it. I mean, I don't know

- 1 how in the world you can't get something on the
- 2 docket to have -- I just don't understand it, but
- 3 okay. It seems like there's been a lot of
- 4 hurdles. So we're going to do it. So that needs
- 5 to be heard. And how long is the motion for a
- 6 custodian pendente lite going to take?
- 7 MR. STERN: Your Honor, we have to go
- 8 through all the discovery to be able to get
- 9 something like that -- we've gotten zero. It's
- 10 been four months -- more than four months.
- 11 THE COURT: Okay. So it's an evidentiary
- 12 issue. Discovery needs to be -- you have to have
- 13 a discovery cutoff, because there needs to be --
- 14 so you need a trial date for that hearing so you
- 15 have discovery cutoff dates. I mean, at this
- 16 point, you know, we're working -- normally
- 17 scheduling orders work off of actual trial dates.
- 18 You're doing interim discovery with interim
- 19 discovery cutoffs, essentially, because of
- 20 preliminarily substantive motions. I hope I'm
- 21 fairly characterizing this for you all so you all
- 22 know -- and I don't have an end date from which to
- 34
- 1 calculate back discovery cutoffs. So you need a
- 2 discovery cutoff.
- 3 MR. McDONALD: That's a correct
- 4 characterization. The problem is we're four and a
- 5 half months in since our discovery requests have
- 6 been served and we've gotten zero.
- 7 THE COURT: Right. I understand,
- 8 Mr. Stern, because --
- 9 MR. McDONALD: Your Honor, if I could --
- 10 THE COURT: Stop. Stop. I asked one
- 11 question. How long will the trial on the
- 12 custodian pendente lite take to try? That was my 13 question.
- MR. McDONALD: Your Honor, I think we 15 probably need about a day for that.
- 16 THE COURT: One day. Mr. Stern, you're 17 saying I don't know, probably, because you haven't 18 gotten all the discovery?
- MR. STERN: We have no idea how many 20 witnesses -- that's the thing, if you saw in the
- 21 emails we submitted, I even tried to talk to --
- 22 THE COURT: Okay. Mr. Stern, contain

9 (33 to 36)

Conducted on March 11, 2021

1 yourself, please. I think it's two days. Because

2 this is the heart of the case, isn't it?

3 MR. STERN: It is.

4 MR. McDONALD: It is.

THE COURT: It's basically saying they

6 have so badly handled this we need a custodian or

7 a receiver to fix it, to manage it. So that goes

8 to the heart of it. So that's not going to be our

9 first motion, because it's basically got to happen

10 after further discovery, which we will figure out

11 in a few minutes. Then the fourth motion is the

12 other plaintiff's motion to disqualify counsel.

13 And -- and please refresh my memory on this, what

14 counsel needs to be disqualified?

15 MR. McDONALD: Your Honor, we're moving to

16 disqualify Mr. Stern. And we don't do that

17 lightly, but he is a material witnesses, he and

18 his firm are material witnesses that are

19 intimately involved with Compass. And that --

20 that motion sort of -- it informs I think a lot of

21 other motions and whether Mr. Stern should be

22 making any of these arguments.

THE COURT: Okay. So how long will that

2 -- that's going to be obviously an evidentiary

3 hearing?

4 MR. McDONALD: Yes, Your Honor. I think

5 that one will be no more than three hours.

6 THE COURT: You've got two and a half

7 hours for non-evidentiary motions today, you

8 realize that, so I'd be certain of that estimate,

9 but I would say a day.

10 MR. McDONALD: I hear what you're saying,

11 Your Honor.

2 THE COURT: I think it's a day. You're

13 looking at presenting testimony from a number of

14 people who are going to say, you know, whatever it

15 is you think they're going to say, and then

16 Mr. Stern and his firm and Compass will obviously

17 have a different opinion, otherwise we wouldn't be

18 arguing over this. So my view of this is that the

19 motion to dismiss and the disqualification are the

20 first two motions in order. I'm not telling you

21 when -- you know, how much time in between these

22 things or if they will be on separate days even or

1 if we're going to combine these into one three or

2 four-day event and hear them in the order I'm

3 suggesting, okay?

4 But I think that at least the dismissal,

5 the disqualification, and the plea in bar should

6 be heard sooner than the custodian. And I say

7 that because, again, as I already said having --

8 if these dismissals or if these dispositive

9 motions, excuse me, are granted, again, the whole

10 predicate of the pendente lite custodian rests on

11 the case being allot, so hence pendente lite.

12 So we have to know whether or not this 13 case is going forward, so the dispositive motions

14 need to be heard. So that's my view of it. And

15 because we're talking about two, maybe all three

16 being evidentiary, and I imagine there being

17 overlapping information, it seems to me we should 18 combine this in a multiday hearing and hear it in

19 the order I suggested. It may be that all the

20 matters are simply -- you dump all your evidence

21 in and have the Court make whatever decisions it's

22 going to make on those three motions, but it needs

at 1 to be set out so you have time to get your

2 witnesses, then the custodian pendente lite should

3 be scheduled, I suggest, shortly thereafter. And

4 then you can all can work backwards from those

5 dates and get your discovery cutoffs, we can do an

6 interim scheduling order for you which picks dates

7 for you to pick back from.

8 MR. STERN: Your Honor --

9 THE COURT: I don't know how else to say

10 it, but that seems to be the logical way to do it.

11 MR. STERN: Your Honor, if I may, I think 12 the motion to dismiss should be heard earlier

13 because it's a legal argument. The only potential

15 occause it's a legal argument. The only potentia

14 evidentiary situation, which I don't think is an

15 evidentiary one, but if they want to make it one I

16 understand that is identifying where the witnesses

17 are. That's not going to take discovery -- people

17 west remains new going to white discovery people

18 know -- we don't know which witnesses are going to

19 be called in for the evidentiary hearings, but

20 where all the evidence is in this case is part of

21 the forum non conveniens. That's all -- those are

22 the two arguments, necessary party, forum non

11 U

10 (37 to 40)

11 (41 to 44)

43

1 conveniens.

And if that motion is granted, that gets

3 you rid of the need for all these other motions

- 4 all this over discovery, that should heard first.
- 5 I would agree with and I'm fine with if the Court
- 6 wants to order that the plea in bar and motion to
- 7 disqualify are heard together, that's fine, I
- 8 didn't know there's going to be different
- 9 evidentiary issues, but I'm trying to find a path
- 10 where there's some -- some semblance of organized
- 11 structure and the parties not spending a lot of 12 money that they don't need to spend.
- 13 MR. McDONALD: Judge, I don't see how we 14 can have a hearing on the motion to dismiss
- 15 without at least at the same time deciding if
- 16 Mr. Stern should even be making these arguments,
- 17 because it is conflicting.
- MR. STERN: Your Honor, I'm just -- I'm 19 getting tired of this dirt being thrown. That
- 20 motion is so weak they couldn't get discovery from
- 21 a court in Maryland because they couldn't even
- 22 make out the bare minimum that's required to get
- 1 discovery. That's how much -- it's all part of
- 2 their part and parcel, their strategy to distract
- 3 from the other my conduct and throw dirt on the
- 4 law.
- 5 THE COURT: Let's do this. All right. So
- 6 maybe this will help with the other things that
- 7 we've been talking -- what I'm having difficulty
- 8 with -- let me stop there. What I'm having
- 9 difficulty with on these discovery motions is that
- 10 all discovery -- discovery has been propounded and
- 11 there are complaints that no one's getting what
- 12 they're asking for timely and there's all these
- 13 impediments and this and that. Okay.
- We're going to resolve some of that today 15 and get the ball rolling. This has been
- 16 outstanding for months, the discovery. So it
- 17 strikes me that we should be able to schedule the
- 18 dismissal, motion to dismiss, and the
- 19 disqualification for one day on the same day and
- 20 you won't need to have much additional discovery
- 21 after today. I think everything is going to be 22 cleared out by then.

And then the plea in bar we'll set a 1

- 2 second hearing on a separate day for a day. And
- then the custodian pendente lite will be further
- 4 out set for two days. And the reason I say
- further out, meaning third a row, I don't mean
- 6 seven months from now, but several -- the third
- one of three hearings that we're going to have for
- 8 you all so that, A, you'll get all the discovery
- 9 done; B, you will have the time; and C, because I 10 think this is the proper order of things.
- So this should work, but -- and we'll have
- 12 to pick three trial dates for you all on that. So
- 13 before I choose those dates or we choose those
- 14 dates, I want to move on to -- I think now we're
- 15 into pretty much the discovery matters. And I
- 16 think we can probably handle them all -- because
- 17 they're all sort of versions of the same argument.
- 18 The motion to compel, the plaintiff's motion to
- 19 compel for a protective order, which is
- 20 essentially a motion to adopt the plaintiff's
- 21 language of a protective order, right, and then
- 22 defendant's cross-motion for a protective order,

42

1 which is essentially the opposite, please take

- 2 this view of a protective order. That's basically
- one issue. Plaintiff's motion for a protective
- 4 order and discovery plan. Defendants cross-motion
- to compel discovery, and plaintiff's second motion
- to enlarge time for discovery responses.
- So they're all discovery. And there are
- 8 multiple concerns about protective orders. So the
- 9 protective order seems to be the hurdle, at least
- 10 one of them. And I think now it's before the
- 11 Court. So let's start with the protective order
- 12 issue. So there was a request during this
- 13 discovery period or insistence, however you want
- 14 to phrase it, that you all enter into a protective
- 15 order regarding certain confidential information.
- 16 The plaintiffs are of the opinion that the
- 17 language, which involves some liquidated damages
- 18 provisions, and another enhanced -- enhancement to
- 19 the protective order, which is somewhat disputed
- 20 as to whether it's an attorneys' eyes only
- 21 protective order or an enhancement that comes
- 22 before the Court, which is kind of the way I read

12 (45 to 48)

47

48

1 it, and whether that's necessary; right?

2 So when you think about this, at least

- 3 from my view of the briefs that I read, both of
- 4 you are claiming pretty significant problems with
- 5 the way this company was run or the way certain
- 6 individuals conducted themselves vis-à-vis Compass
- 7 Marketing and whether they were using it as their
- 8 own personal slush fund or they were
- 9 misappropriating funds and acquiring interest in
- 10 another company and basically disassembling
- 11 Compass improperly. Two very serious views of the
- 12 same condition of the company.
- 13 So obviously each of you has concern about 14 where that information is going to go. And so
- 15 protective order sometimes obviously is necessary,
- 16 and neither of you seems to dispute that. So the
- 17 question is why is one better than the other and
- 18 what does one accomplish the other one doesn't,
- 19 and what is the most safe possible way to protect
- 20 the information so that the individuals producing
- 21 it and relying on it has confidence it's not going
- 22 to misused? And so that's to me the nut of a
- 1 protective order, is it gets people to have some
- 2 confidence in what they're disclosing is not going
- 3 to be misused, and that they can use it if they
- 4 need to use it.
- So that's the idea. I don't want to
- 6 create a problem, additional hurdles, but at the
- 7 same time, if you don't have confidence that when
- 8 you turn things over it won't be misused, you're
- 9 going to have some trouble getting that
- 10 information or you're going to be more combative
- 11 about it. And so the idea is try and take some of
- 12 that discomfort away or lack of trust. And I can
- 13 tell you there's a clear lack of trust here. So I
- 14 want to eliminate that as much as I can, but at 15 the same time let you all get what you need.
- Because I think, as I said earlier, airing
- Because I think, as I said earlier, airing
- 17 some of these issues out like seeing the documents 18 or seeing the materials and answering the
- 19 questions is going to help you all get a clearer
- 20 picture of what your clients are telling you and
- 21 what you all can do. So that's how I've always
- 22 viewed these, and I think as a lawyer how judges

- 1 have explained it to me. So that's how I see it.
- 2 Mr. McDonald, this was plaintiff's motion.
- 3 I'm sorry if it's Mr. Lawrence who's arguing it, I
- 4 don't know. I want to understand why your
- 5 protective order is the best way to go, and if --
- 6 and how we're going to use that. Okay?
- 7 MR. McDONALD: Mr. Lawrence is prepared to
- 8 argue that.
- 9 THE COURT: Okay. Thank you.
- 10 MR. LAWRENCE: Yes, Your Honor, thank you.
- 11 The reason for the protective order is the way to
- 12 go is two provisions that are disputed here. As
- 13 Your Honor points out, we agree there needs on to
- 14 be a confidentiality agreement. There needs to be
- 15 some protections afforded. And so we agree with
- 16 that, and we think that the version that doesn't
- 17 include supervision is appropriate. And that's
- 18 because the Court will have authority to monitor
- 19 it should there be some alleged violation of it.
- 20 And the Court can fashion whatever remedies are
- 21 appropriate if that should arise. Now, we're
- 22 confident it won't arise from our side because
- 46
 - 1 obviously we take it very seriously. These are 2 very normal for the type of litigation that we
 - 3 handle. Our clients, one is a judge, one is a
 - 4 lawyer, they understand the obligations that they
 - 5 have in connection with this litigation as well,
 - 6 Your Honor.
 - 7 So we think that the order is necessary,
 - 8 and we think that the order as is standard is
 - 9 appropriate. Now, speaking specifically, first
 - 10 off, the liquidated damages provision, which has
 - 11 handcuffed Your Honor and prejudged what remedy
 - 12 would be appropriate if there's an allegation and
 - 13 finding of some breach on either side. We think
 - 14 that's wholly inappropriate for Your Honor. We
 - 15 thinks who if y mapping the inhoment out hours to address
 - 15 think you have the inherent authority to address
 - 16 it however is necessary.
 - 17 There's a difference between going to a
 - 18 mile over the speed limit versus, you know, 19 murdering someone. So it doesn't need to be in
 - 20 there. It's unprecedented. It's never been done
 - 1 0 XX XX
 - 21 before, Your Honor, in the context -- except
 - 22 potentially there might be one case in all of U.S.

Conducted on March 11, 2021

50

1 juris prudence that found -- that entered an order

2 that the parties had agreed to. It's just

3 unprecedented. And \$150,000 per violation, it

4 doesn't even relate -- we don't even know what the

5 situation is. So liquidated damages clause shows

6 up out of nowhere, has no precedent, and the Court

should reject it.

As for the attorneys' eyes only provision, 9 it similarly has no place in a shareholder dispute 10 like this. My clients, at least they've -- we 11 believe they're 50 percent owners of this 12 corporation. They concede on the other side that 13 they're at least one-third owners of this 14 corporation. So they're major shareholders of 15 this corporation, and they alone are going to be 16 the ones that are going to be able to assist or

17 aid in their own prosecution of the claims and 18 potentially defense of any counterclaims. So I can't -- I am just a lawyer, Your 20 Honor, as you know. I'm a fiduciary to them, I'm 21 serving them, I'm not involved in these facts like

22 Mr. Stern is. I don't know the significance of

1 documents. I have to rely upon my client to tell

2 me that. I don't have an expert either that's

3 going to tell me, you know, the context of all 4 this.

5 So it would be -- it would be

6 inadministerable for me to be able to just receive

7 documents, evaluate them, and use them in the

8 prosecution and defense of my clients without

9 consulting my clients regarding these documents.

10 So the attorneys' eyes only provision comes up --11 and I've seen it before and I've had to use myself

12 in the context of trade secrets.

Now, my clients are competitors with 14 Compass, they are Compass. They are -- they are 15 the founders along with Mr. White on the other 16 side of this company. And so the trade secrets, 17 if there are any, that would be disclosed to us, 18 the confidential financial information. If there 19 is any, that needs to be disclosed to us, that was 20 information that my clients were involved in at 21 the time. So there's no purpose to have my 22 clients shielded from the discovery in this case.

1 And it would just create more mischief, Your

Honor, if it's placed in there.

Now, if there's something that Mr. Stern

or Ms. Harris come up with that they want to

approach the Court with and come to you and say,

this needs attorneys' eye only protection and you

can obviously see what it is, we're not saying --

whenever the Court enters an order, there's never

9 a preclusion that you will not go back and revisit

10 the order or try to get something in addition to 11 the order.

12 But we think putting it in the order just

13 creates the opportunity for mischief. This is not

14 a trade secret case, this is not an antitrust case

15 between competitors. And everything they bring up

16 with regard to these supposed proton emails and

17 anonymous complaints, Your Honor, that is the

18 subject of a lawsuit that Mr. Stern filed against

19 three individuals who are not my clients in

20 Montgomery County, Maryland. He did not name any

21 complaints. And so he's coming to you and saying

22 here's evidence of what they're going to do with

1 information if they get it, and yet he's filed a

lawsuit in the state court in Maryland making

those same allegations against three other

individuals. So which is it?

5 It's just not needed and it would be

6 unadministerable for you, Your Honor, it would

handcuff us as counsel to not be able to satisfy

our professional obligations.

9 THE COURT: Okay. Well, just so it's

10 clear, I didn't read what I think was originally

11 paragraph nine in this -- or eight in this

12 proposed protective order to say that the

13 materials in general are attorneys' eyes only. It

14 only suggests that if there's documentation that

15 they view highly confidential information that you

16 would have further discussions to create some sort

17 of protections around that, which might include

18 attorneys' eyes only, because I didn't want to

19 blanket agree that all of it was at the same level

20 of confidentiality or protection.

So it was a provision -- and I don't know 22 what the information is, and I'm clearly not going

52

13 (49 to 52)

1 to prejudge what it is because it hasn't been

- 2 disclosed yet. But it strikes me that that's the
- 3 triggering position or triggering provision where
- 4 it goes on to say if the parties cannot reach
- 5 agreement and the producing party continues to
- 6 withhold, then the producing party -- so in other
- 7 words, it puts the onus on them to file a
- 8 particular motion, seeks a resolution with the
- 9 Court.

10 So yes, it creates a cumbersome area if
11 you all can't agree, but it presupposes you will
12 agree on how to manage it. And it doesn't say
13 that all the materials are going to be for your
14 eyes only and not your clients, because I would
15 have to agree in a case of a closely held company
16 like this and how personally involved they were,
17 they're going to have to see a lot of this
18 information obviously to make sense of it and help
19 you craft your case. So I don't think there's any
20 dispute about that.

21 The question is whether this provision as 22 drafted is over the top. So the question I'd have

1 what did you envision would be something that

2 would be of that sort?

3 MR. STERN: I'm more comfortable answering

4 that. To me this is a pretty typical provision

5 that I've included in protective orders before

6 saying, hey, if you come across something that

7 seems like this is beyond the pale and this is

8 something that's super confidential that we've got

9 to limit it to attorneys eyes', it's in there for 10 that possibility.

11 You were spot on with describing the 12 provision. It's not saying that everything is 13 going to be attorneys' eyes. There is a meet and 14 confer obligation on the front end. So it's for 15 the extraordinary circumstances when there's 16 something that's really highly confidential. This 17 is really -- probably in the context of this case, 18 one example would be some prospective business 19 dealings that these plaintiffs have shown an 20 inclination to sabotage the company.

The information of investment in 22 Teknetics, for example, they were one of a small

1 for Mr. Stern then is with regard to that

2 provision, you obviously had some thoughts about

3 the materials that may fall into the category of

4 highly confidential information, and I guess my

5 question is, you know, is that a lot of

6 information? Is it a little bit of information?

Because ultimately if it's all viewed from 8 your point of view as the producing party, they're 9 not arguing it from the other side, mind you, 10 they're only arguing it from this side as the 11 receiving party. But as the producing party, do 12 you expect that a large percentage of these 13 documents or answers are going to be, quote,

14 highly confidential information?
15 MR. STERN: I think it's a fair question,
16 and unfortunately I don't have a clear answer on
17 that, Your Honor. We drafted this back at the
18 very beginning of discovery while we were
19 gathering information, and I haven't really, quite
20 frankly, studied it that much since to know what
21 would be fit into that category.

THE COURT: When you wrote the document,

1 handful of people that had access to that

2 information. Yet somehow during the bankruptcy

3 proceeding involving Teknetics, somehow the

4 investor was told about misinformation about how

that information was being used.

They're one of the small handful of people on earth that knew about that deal. How did it end up in the investors hands? So to me that's significant evidence of them trying to not protect to this company but tear this down.

We haven't had the chance to get full 12 discovery that to confirm it was them, but the 13 inferences are there. Now, Mr. Lawrence is trying 14 again, you know, misdirect. He's talking about 15 that other lawsuit. A couple of other things 16 about that lawsuit. That was filed against three 17 John Does. Since the filing of that lawsuit we've 18 been able to confirm the owner of that P.O. Box 19 was a close personal and former colleague of 20 Michael White's. We've now confirmed that. What 21 are the odds of that?

Again, the information that's being

1 disseminated in an effort to tear down Compass,

2 these plaintiffs are in a unique position being

- 3 some of the few people on earth that have the
- 4 access to the contacts, the information, and so if
- 5 somebody's going to be prospectively hurting
- 6 company or something in some other way that is --
- 7 that they can use weaponize, we have to have that
- 8 tool available to us to be able to protect the
- 9 company.
- 10 This case is all about misdirection, Your 11 Honor. I know -- they keep trying to throw in 12 some of the merits here, but I have to as well to 13 protect Compass here. This effort to dissolve the 14 company is to cover up their own misdeeds. And 15 we've now presented substantial evidence to the 16 Court that not only are they hurting the company 17 by taking from it, they're hurting the company by 18 trying to interfere with relationships, destroying 19 investment opportunities, destroy customer 20 relationships.
- The question isn't about -- when he talks 22 about proton mail, the question isn't whether or
- 1 not somebody else is going to sue, the question is
- 2 to Dan White and Michael White, who are on this
- 3 call today, have they ever used or operated a
- 4 proton mail account, but they're not telling you
- 5 that. Why is that? Because we are fairly
- 6 confident the answer is yes and they're the ones
- 7 that are disseminating this information. They're
- 8 not getting on the line to tell you that. There's
- 9 a reason --
- 10 THE COURT: I wouldn't expect them to. 11 That's not way this operates. This is all legal
- 12 stuff. All right. So, Mr. Stern, the last
- 13 question from me then to put this back on you for
- 14 any comment is Mr. Lawrence's argument that
- 15 imposing a liquidated damages provision,
- 16 especially to the tune of six figures, is neither
- 17 something that's precedent or is appropriate given 18 that, you know, any minor infraction would still
- 19 involve in the same relatively draconian, if you 20 will, penalty.
- 21 MR. STERN: My response to that is quite 22 simple, Your Honor. If they don't want that

- 1 penalty imposed on them, don't break the
- 2 confidentiality. Don't violate it. It's really
- 3 simple. They're in complete control of their
- 4 compliance. No one else is. You have to ask
- 5 yourself, why would they be so opposed to this?
- 6 We've not included the monetary figure as the
- 7 example about that investment. I will tell you,
- 8 Your Honor, that monetary loss is multiple times
- 9 more than the liquidated damages provision that's 10 in dispute.
- 11 So the amount of harm -- the purpose of
- 12 liquidated damages is when the measure of damages
- 13 is difficult to ascertain. And depending on the
- 14 nature of the violation, unfortunately the harm
- 15 that could be brought to Compass can't be greater
- 16 than the 150,000 liquidated damages provision, and
- 17 in some instances maybe less, but I come back to
- 18 the same question as before. Why are they so
- 19 opposed to it? Look at all the quote/unquote
- 20 anonymous attacks on this company. There's a
- 21 high, high degree of concern and confidence that
- 22 they're the people that are doing this, and
- 1 they're looking for an escape clause to continue
 - 2 to do it and use this court as a lawful mechanism
 - 3 to continue their attacks against Compass.
 - 4 The simple answer is to -- for the
 - 5 plaintiffs in this case, comply with the
 - 6 protective order. But, in fact, Mr. Lawrence's
 - 7 argument almost implies that they're prone to
 - 8 violate it because, well, what if the violation is
 - 9 not that severe? Your Honor it's, almost an
 - 10 admission. You have to look behind the surface of
 - 11 what's being said and look at the question of why
 - 12 and where this is really coming from.
 - 13 It's almost like I'm in the Wizard of Oz.
 - 14 Don't look behind the curtain. Just look at the 15 smoke screen in front of you. And that's what's 16 going on.
 - 17 THE COURT: So, Mr. Lawrence, final word 18 on any of that and I'll wrap up that.
 - MR. LAWRENCE: Yes, Your Honor. As you 20 heard, he has no precedent for liquidated damages 21 involved. He also might be comfortable with, you
 - 22 know -- in some (inaudible) involved the history

60

15 (57 to 60)

63

1 of cutting off hands (inaudible) the loaf of

- 2 bread. We don't need to set down parameters as to
- 3 what would happen if someone, not my clients, if
- 4 someone violates it. Mr. Stern will be able to
- 5 prove up whatever damages and I will be able to
- 6 prove up whatever (inaudible.)
- More telling, Your Honor, you asked the
- 8 question, what does he have that's attorneys' eyes
- 9 only? What does he points to? He points to
- 10 nothing. And he points to an example that's
- 11 Exhibit 26 of his opposition where an investor
- 12 said, hey, wait, I just learned that Teknetics
- 13 isn't solid and is in bankruptcy, so I'm going to
- 14 go through this deal anymore.
- First off, the fact that Teknetics was in
- 16 bankruptcy isn't something that deserves
- 17 attorneys' eyes only protection. That's the type
- 18 of stuff he's looking for. These anonymous emails
- 19 were emails or packages that he lines up that he
- 20 has litigation concerning in Maryland. All of
- 21 them are forwarded copies in the complaint, copies
- 22 of public hearing, copies of maybe the transcript
- 1 of maybe this hearing. This is not stuff that
- 2 deserves attorneys' eyes only. So he's got
- 3 nothing that shows you that this should be in
- 4 here, and if it is in here, I can almost
- 5 guarantee, Your Honor, he'll be conferring with
- 6 you.
- 7 MR. STERN: Your Honor --
- 8 MR. LAWRENCE: I've never interrupted you,
- 9 Mr. Stern.
- 10 THE COURT: Mr. Stern, no.
- MR. LAWRENCE: And, Your Honor, I can
- 12 almost assure you there's going to be several
- 13 conferences, there's going to be more motions,
- 14 there's going to be more delay. We've had enough
- 15 of that in this case. Now, if something were to
- 16 come up, of course I can't -- there's no motion by
- 17 me to have the Court order that Mr. Stern can't
- 18 bring up things in the future. And that's the way
- 19 it should be dealt with, Your Honor, we
- 20 respectfully request.
- THE COURT: And I was reviewing this
- 22 earlier. I think the liquidated damages provision

- 1 is an interesting concept because if you believe
- 2 in the concept of deterrents, maybe not community
- wide deterrents, but deterrents in a particular
- 4 case, knowing that there's a steep price to pay
- for a violation is well worth understanding. And
- 6 so extra caution would be taken. But it's also
- the safeguard for the producing party.
- I don't want to have trials within trials
- 9 within trials. And if I'm going to impose a
- 10 sanction, which is what the motion would be if
- 11 someone filed breach of the confidentiality
- 12 agreement, I'd have to have a whole trial and hear
- 13 a whole thing about damages. I feel like --
- 14 Mr. Stern's argument is succinct, meaning if you
- 15 don't want to have liquidated damages, don't
- 16 breach the agreement, but that's also a really
- 17 powerful message, right?
- So I don't think that the liquidated
- 19 damages provision, maybe there are no cases on it
- 20 because no one's appealed it, I don't know, but it
- 21 doesn't seem wrongheaded on the face of it. So
- 22 that part of it is actually not as disturbing to

1 me.

62

- 2 What I do find troubling about the
- additional protection provision that was proposed
- originally by Compass is I think the point that
- Mr. Lawrence is making, which is we're bogging
- 6 ourselves down what if and what if and what if
- scenario. I think he's right in that I think
- 8 provision should probably read something to the
- 9 effect of nothing herein precludes a party from
- 10 seeking additional protections from the court.
- And what would that would mean providing
- 12 the information and telling the Court, look, we
- 13 really think this should be attorneys' eyes only
- 14 or whatever the protection is that you're seeking.
- 15 Because this is a pretty expansive document, this
- 16 confidentiality agreement is pretty expansive, and
- 17 it provides a lot of protection for everybody.
- 18 And I think if you go into it saying we're always 19 going to have to argue about something that's not
- 20 really a defined term, highly confidential
- 21 information, it's going to create a lot of 22 problems.

PLANET DEPOS

67

I realize why the provision was put in 2 there, I understand it, in other words I have to

- 3 be careful, Judge, because there's information
- 4 we're concerned about. But I don't think that's
- going to get you very far in discovery except to
- create more of these impasses.
- So knowing that the next level is you have
- 8 to come to court I think is probably the better
- 9 approach. So I don't have heartburn actually
- 10 about the liquidated damages, I think that gives
- 11 you that protection that you want. You want there
- 12 to be something out there that says, this is so
- 13 important that we mean business, six figures of
- 14 damages if you violate it. And then that's on you
- 15 if you violate it.
- But I think that paragraph eight or nine, 17 whichever was the original number on that should
- 18 probably be amended to say that nothing herein
- 19 precludes a producing party from seeking
- 20 additional protection from the court. And so I'm
- 21 sort of splitting it, I guess I'm giving you each
- 22 half a baby there. Split the baby a little bit.
- 1 So I think that will help you. Now that you have
- 2 a protective order, confidentiality agreement,
- 3 whatever you're going to call it, I think you all
- 4 should be dumping documents on each other like
- crazy. All right?
- So that's how I would resolve that 6
- 7 argument. And hopefully that will work for you
- 8 all a little bit better. I just think you all
- 9 need closure on that. So that's your protective
- 10 orders done. And that puts us to -- and I guess I
- 11 need some clarity, and this is going to go to
- 12 setting dates for these other hearings.
- There's a request for protective order, 14 this is plaintiff's motion four or the fourth
- 15 motion. Motion for protection and discovery plan,
- 16 I think. Is that an additional protective order,
- 17 Mr. Lawrence?
- MR. LAWRENCE: Yes, it is Your Honor what 19 it seeks to do is have the court issue an order as 20 to the timing and sequence of discovery.
- THE COURT: That's right. So that's the 21 22 discovery plan issue. All right. What's

- 1 problematic about that to me is I think Mr. Stern
- 2 is correct in his opposition that he writes that
- there's really not -- the rule doesn't permit
- 4 that. And I don't think putting off things until
- one person's answered and another person's
- 6 answered. You all have already propounded
- discovery and it has its own internal deadlines,
- 8 right?
- 9 If stuff was sent out in October, that had
- 10 a response date. And it looks like everybody is
- 11 overdue but a lot a lot on these responses. And
- 12 so I don't think setting up a discovery schedule,
- 13 I guess, that says Mr. Stern has to respond first
- 14 before we respond or the other way around, I don't
- 15 think that is any merit. You all propounded
- 16 discovery already and it already has deadlines, so
- 17 why would we be doing that? I don't understand
- 18 it.
- 19 MR. LAWRENCE: Because, Your Honor, we
- 20 believe there needs to be a court order telling
- 21 the parties you need to respond by a particular
- 22 day. You could even do it simultaneously. What's

66

- 1 going to happen, what has happened is that there's
- impediments thrown up at the last minute and
- Mr. Stern is beating on us to say, bring your
- discovery, bring your discovery.
- Now, we had the impediment as well too 5
- with regard to the protective order, which Your
- Honor has now cleared the way for, but the bottom
- 8 line is there's extreme gamesmanship going on with
- 9 regard to the discovery -- well, that's the way we
- 10 view it, Your Honor.
- THE COURT: I know. Both of you view it 12 that way.
- MR. LAWRENCE: So, for example --13
- 14 THE COURT: That's the trust problem I'm 15 talking about; right?
- 16 MR. LAWRENCE: Sure. And, for example,
- 17 kind of one of the most notable examples is that
- 18 we were trying to clear the dates in January with
- 19 regard to setting third party depositions up,
- 20 which we thought would be the most efficient way
- 21 for it because at least we'd get something going
- 22 here, and Ms. Harris suddenly had available dates

PLANET DEPOS

18 (69 to 72)

71

1 on the 7th and 8th, and I had a list of four

- 2 witnesses that I was trying to schedule, and
- 3 Mr. Stern then notes my client's depositions for
- 4 those dates.
- Now, that's entirely inappropriate for a
- 6 lot of reasons. Number one, I was looking for
- dates, and then he jumped in with dates. Number
- 8 two, Ms. Harris's client isn't even in the case
- 9 yet. And so for us to be moving forward with my
- 10 client's depositions before they've completed any
- 11 written discovery, substantive written discovery,
- 12 there's been some tickle, before any of that it
- 13 was just gamesmanship, Your Honor.
- THE COURT: Mr. Lawrence, here's the 15 thing. I've seen a lot of it on both sides. And
- 16 I'm not suggesting any of it is wrong or right.
- 17 It's strategic. All of this is strategic. You
- 18 all are resisting certain things for whatever
- 19 reasons, they're resisting certain things for
- 20 certain reasons and you've come to an impasse. So
- 21 I feel like I feel like I'm sort of in my drug
- 22 court where I'm trying to talk to the participants
- 1 and help them understand the ways of recovery --
- 2 thankfully I've never been in recovery, but I can
- 3 talk the talk a little bit. I have been in your
- 4 shoes before. So we all need to get into recovery
- 5 today on this on how we're managing moving the
- 6 case forward.
- So I accept your representations of how
- 8 you view this case, and I accept Mr. Stern's view
- 9 of how he views the case. Okay? Those are your
- 10 truths, if you want to call it that. I'm feeling
- 11 very woke at the moment. Anyway. My point is it
- 12 doesn't help to sort of sit in that so long. I
- 13 think we have -- you're in front of me because
- 14 you're at an impasse and I commend you for
- 15 bringing it to me. So let's get out from under
- 16 the feelings and get onto really how we're going
- 17 to move ahead.
- The Court hears the accusations on both 19 sides and wants you all to get to a place of
- 20 discovery where you can see whether there's any
- 21 merit to any of this, okay? All right. Thank you
- 22 for indulging me.

- So with respect to the order of things.
- 2 As I said originally, you kind of already set out
- the order of things. You've propounded discovery.
- So maybe the answer to the question is where are
- we on compelling everybody? Maybe that's the next
- question, because it feels like that's where
- Mr. Lawrence is concerned. That look, Judge, you
- 8 need to compel everybody to do stuff otherwise
- 9 we're not going to get off the dime. And when are
- 10 you going to compel us to produce; right? But
- 11 everybody has a motion to compel today. Not
- 12 Ms. Harris, but, you know, Compass and the White
- 13 brothers have motions to compel. Okay?
- So I'm just going to ask you succinctly,
- 15 Mr. Lawrence, on your motion to compel, when are
- 16 you looking to have -- assuming I agree to compel
- 17 it, when are you looking to have Compass produce
- 18 these materials that you're seeking in the motion?
- MR. LAWRENCE: So we proposed in the order 20 that they would provide their written responses
- 21 within five days of the entry of the above
- 22 confidentiality order, and we would provide ours

- 1 within 14 days thereafter. And then we put the
- 2 parties' depositions at the back end of the
- 3 discovery as it relates to a scheduling order,
- 4 Your Honor. And we think that's the appropriate
- order because there is a lot to be done in the
- 6 case and the -- you know, if we just play
- strategic discovery with each other -- and I'm
- 8 actually -- I'm willing to consider alternatives
- 9 that Mr. Stern would propose. In fact, I asked
- 10 him for that proposal, and I would give him more
- 11 time for it if it sets up with schedule fine.
- 12 THE COURT: I got your answer. Let me
- 13 just say, Mr. Lawrence, I don't agree that they
- 14 would be required to respond before you respond.
- 15 I wouldn't agree to that. I don't agree to that.
- 16 I think we're going to pick a time, a day, maybe
- 17 it's just two weeks for everybody to gets their
- 18 answers across. You'll have the same deadline.
- 19 Mr. Stern has 14 days or too much time, you want
- 20 these response sooner, how would you like to
- 21 handle it?
- 22 MR. STERN: Let me pull up my calendar

19 (73 to 76)

75

76

Conducted on March 11, 2021

1 because I do know I've got a little trip coming up

in the next period of time here, so...

3 THE COURT: I would think you want this done before you leave so you can go and have a

good time before having it on your conscious.

MR. STERN: I would. So am I

understanding you correctly, Your Honor, that

you're looking for a date where both parties

9 produce their documents the same day?

10 THE COURT: Yeah.

MR. STERN: I would say then by the 19th 11

12 or -- March 19th? I think that should be fine.

THE COURT: Sure. I think that makes 14 sense. That gives you a little more than a week, 15 you'll just be busy. And that way both of you do 16 your discovery dumps on each other, I think that's

17 what we call it at this point, there's quite a lot 18 of built up things. I think what you're going to

19 want to have done, you're going to sign the

20 confidentiality agreement today, you'll have time

21 to do it today, that should be your order of

22 business, to get that confidentiality agreement

1 signed, and then that should give you all the

2 confidence that you require to produce that

3 material, okay?

4 MR. STERN: Your Honor, one other point on

that. I also think it's important, as Your Honor

6 may recall from our requests, we think plaintiffs

7 should waive all their objections because they've

8 not served a single objection, not a single

9 response, and it's not that they don't know what

10 the rules are, the rules clearly require it. They

11 even have our sample to explain -- as an

12 illustration even if they can claim some

13 indifference.

THE COURT: That brings us to another 15 motion, doesn't it, the plaintiffs's motion to 16 enlarge; is that right?

17 MR. STERN: That's where they all 18 interrelate.

MR. LAWRENCE: With regards to our request 20 for discovery plan, is it -- is Your Honor certain 21 about the 19th, we would also have answers to 22 interrogatories and requests for admission as

1 well?

2 THE COURT: Everything. You've had months

and months to see this and work on it; right? So

the motion to enlarge, I don't understand the

5 motion to enlarge.

6 MR. LAWRENCE: Well, I understand, Your

Honor. I think you just mooted it. But with

regards to discovery plan, is there any order with

9 regards to the depositions?

10 THE COURT: Why? Why?

MR. LAWRENCE: Because they're not 11

12 producing discovery. We've had the impasse with

13 regards to discovery, we've had all these

14 scheduling issues, we don't have Mr. White in the

15 case yet. He's going to want to have his rights

16 for discovery against our clients as well too.

THE COURT: What you're asking me to do is 18 make a number of rulings that are not before me --

MR. LAWRENCE: But that --

20 THE COURT: -- because you're presupposing

21 -- hold on. Let me finish why. You're

22 presupposing there's going to be an objection to

1 your noticing of Ms. Harris's client. You're

2 presupposing there's going to be an objection to

the depositions, which you've had as a scheduling

conflict because you're trying to use some January

dates and he's trying to use some January dates

6 and the like.

74

If you want to go back and set up -- if

you all are in agreement to set up deposition

9 dates prior to the various hearing dates we're

10 going to pick, that's one thing, because you need

11 an interim discovery order if you all agree those

12 depositions need to take place, okay? But I'm not

13 in the habit of just normally getting involved in

14 micromanaging your discovery. That's normally

15 handled with one of our form scheduling orders

16 when you have a trial date. Okay?

17 So I don't want to get into the minutia of 18 it except that I want to get something agreed to

19 from you all at least verbally today that you

20 intend that these depositions need to be taken and

21 before these hearing dates come up. If the answer

22 is they don't need to be taken, then you should be

1 efforting, if you will, to get discovery done that

- 2 pertains to these motions and will affect your
- 3 hearing dates and the motions that are going to be
- 4 heard on those hearings dates. That's what I feel
- 5 like where we are right now.
- MR. LAWRENCE: Your Honor, I believe the
- 7 depositions are necessary. And the reason I say
- 8 that is because there's exigent circumstances for
- 9 these motions, particularly the custodian, so
- 10 we're prepared to proceed forward --
- THE COURT: The custodian -- hold it. I'm
- 12 not scheduling the pendente lite custodian until
- 13 after we hear these other motions. And I don't
- 14 know when you all are going to be available to do
- 15 -- we haven't even discussed those dates yet. So
- 16 it's really the motion to dismiss, the plea in
- 17 bar, and the motion to disqualify Mr. Stern that
- 18 are the first three motions we're going to have
- 19 heard, okay?
- 20 So let's -- I don't think it's exigent at
- 21 all. I think that's the order in which we have to
- 22 have this case heard. So -- and again, I don't
- 1 want to get into some micromanaging of discovery,
- 2 but it looks like at least insofar as Mr. Lawrence
- 3 is concerned, his motion sets forth five people
- 4 plus the parties who need to be deposed. I don't
- 5 know who these people are, but some of it appears
- 6 to relate to Mr. Stern's law firm.
- MR. STERN: Your Honor --
- 8 THE COURT: Those might have to take
- 9 place.
- 10 MR. STERN: Your Honor, the Maryland court
- 11 has already quashed that discovery. They're not
- 12 entitled to it. They've lost it. That's been
- 13 ruled on dispositively by the Maryland court.
- 14 THE COURT: I see.
- 15 MR. STERN: So they're not entitled to it,
- 16 that's not happening. Other people that are on
- 17 there I believe on that list, I don't know if you
- 18 recall seeing our brief, Your Honor, they've now
- 19 disregarded three separate instructions not to be
- 20 contacting Compass Marketing employees directly,
- 21 yet they continue to issue subpoenas. We'll be
- 22 having a motion forthcoming on this thing. All

- 1 we're saying is coordinate with us, but they're
- not. They are issuing subpoenas to Compass
- employees.
- 4 THE COURT: Hang on. First thing's first.
- 5 Discovery responses -- this would be
- 6 interrogatories and request for production of
- 7 documents, those are due in 14 days. So that puts
- 8 us to the 25th, close of business. 3/25. That's
- 9 mutual. Okay?
- 10 MR. STERN: Can we take it to the
- 11 following day, the 26th? Discovery responses on
- 12 the 25th?
- 13 THE COURT: What's the difference?
- MR. STERN: I'm out on the 24th and 25th 14
- 15 so I'm asking for one more day on the 26th.
- THE COURT: 26th. All right. So that 16
- 17 should be -- that's mutual. And --
- MR. LAWRENCE: Your Honor, would that 18 19 include --
- 20 THE COURT: There's not going to be --
- 21 Mr. Stern raised the point that these are
- 22 responses, not objections. Is there any

1 disagreement about that?

- MR. LAWRENCE: We have not served our
- objections, Your Honor. So there are -- there are
- questions of which we would have objections.
- Mr. Stern himself has served substantial
- objections to a lot of these discovery as well.
- THE COURT: That's responsive. When were
- you served with the discovery?
- 9 MR. LAWRENCE: We have the --
- 10 MR. STERN: October 30th and November, I 11 think, 8th or 12th.
- 12 THE COURT: Why do you think you have more
- 13 time to object?
- MR. McDONALD: If I may, I think there's a
- 15 timing issue here because what originally happened
- 16 was there was an extension granted and then there
- 17 was a motion to enlarge time that would have taken
- 18 us all the way to January 8th because Mr. Lawrence
- 19 had an issue in his family. That motion -- that
- 20 motion to enlarge time got moved to January 29th
- 21 because of a docketing issue. And what then
- 22 happened because we had too many issues on a

Conducted on March 11, 2021

1 Friday, frankly, the Court -- the week of the 29th

- 2 the Court called us and said, well, you guys got
- 3 to make pick a new date. That's how we ended up
- 4 here in March. There's been no effort to avoid
- 5 noting objections. It was really -- it was a
- 6 fluke of the calendar really that this got moved
- 7 up twice.
- THE COURT: There's nothing that's
- 9 happened. There hasn't even been an attempt to 10 file anything. It's one thing.
- 11 MR. McDONALD: I think, Your Honor, the
- 12 idea was to have the motion to enlarge time and
- 13 the discovery plan -- that was kind of put
- 14 together to have that ruled on and to put everyone
- 15 on the same a track. And then objections would be 16 noted with our responses when the Court ruled that
- 17 they were due.
- 18 THE COURT: Okay. All of this is -- I'm
- 19 confused about what you want from me, guys. At
- 20 this point no one's answering anything, everyone's
- 21 objecting to everything, there's no motion to
- 22 compel to overrule objections, there's nothing.
- 1 It's just set up a discovery plan and make
- 2 everybody do things in the order I want you to do
- 3 them. That's not okay.
- 4 How can you get discovery requests in
- 5 October and November, never file any objections,
- 6 and then move to enlarge to object? That's never
- 7 happened in my experience. There's no good faith
- 8 anything going on here.
- 9 MR. LAWRENCE: We're not intending on 10 putting on objections, Your Honor.
- 11 THE COURT: Then why are you telling me 12 you want to be object.
- 13 MR. LAWRENCE: It would just be certain
- 14 requests that we would interpose objections for.
- 15 We can assert those in five days, Your Honor.
- 16 MR. STERN: Your Honor, if I may.
- 17 THE COURT: Then we don't get answers in 18 14 days or 15 days either. I don't understand any
- 19 of this.
- 20 MR. LAWRENCE: We would give -- we would
- 21 expedite all considerations of all of them. For
- 22 example -- and I don't have it here in front of

- 1 me -- but there could be something that completely
- 2 is unrelated to -- or overly broad request, we
- 3 might interpose an objection.
- 4 THE COURT: Well, why weren't you prepared
- 5 to put that in writing originally? I think it's
- 6 dereliction. I think it's latches or something
- 7 like that. Here we are in March, no one has made
- 8 any good faith effort to notify anybody about
- 9 their objections to scope, anything. I can't
- 10 grant a motion to enlarge. I can't. First of
- 11 all, there was no effort to even notify. So no.
- 12 There's not going to be a motion to enlarge.
- 13 Everyone has a continuing obligation to
- 14 supplement, so that has its own enlargement by
- 15 rule, so no. Ya'll are going to answer these
- 16 things by Friday, March 26th, close of business.
- 17 MR. LAWRENCE: If I understand Your Honor 18 correctly, does that mean both parties have waived 19--
- 20 THE COURT: Yes.
- 21 MR. STERN: Your Honor, wait a second.
- 22 That's a mischaracterization of the record. We
- 1 served our objections. That's what -- there's
 - 2 been obfuscation here. We served our objections
 - 3 specific request by request by request in a
 - 4 time --

82

- 5 THE COURT: Then you answered them.
- 6 MR. STERN: We have. The plaintiffs have
 - not served a single objection.
- 8 THE COURT: I know.
- 9 MR. STERN: We have not. They've not 10 brought forth any of our specific objections. And 11 by the way, many of them were premised on their
- 12 dereliction and their delay.
- 13 THE COURT: I know.
- MR. STERN: So I object to the ruling to
- 15 punish us for their misconduct.
- 16 THE COURT: I have ruled that your
- 17 responses, if they're substantive and they've been
- 18 hung up because of a protective order, are due on
- 19 the 26th. Motion to enlarge, which would allow
- 20 you to file objections, is denied because there's
- 21 no been no showing of good faith on your end to
- 22 actually tell them what the objections are. You

1 could have done that, but you didn't. And so I'm

- 2 not going to give you an opportunity now to object
- 3 to everything or anything, because you didn't do
- 4 it. You didn't follow the words.
- 5 MR. LAWRENCE: Your Honor, we believed in
- 6 good faith that we were complying with the Court's
- 7 requirements with regards to discovery. And I
- 8 understand Your Honor's point, but the result
- 9 would be that my clients may be required and
- 10 compelled to respond to completely overly broad
- 11 discovery with the threat of contempt being
- 12 brought against them if this is your order, Your
- 13 Honor.
- 14 THE COURT: It is my order.
- 15 MR. LAWRENCE: What I would say, Your 16 Honor, is that would be a mistake of counsel, and 17 not of my clients.
- 18 THE COURT: And that argument can be made 19 anytime, I know.
- 20 MR. LAWRENCE: I understand, Your Honor,
- 21 but we were hung up on the protective order issue
- 22 with regards to responding to any discovery. We
- 1 thought we were --
- 2 THE COURT: Listen, the protective order
- 3 didn't stop them from filing objections, and it
- 4 shouldn't have stopped you. I don't know why you
- 5 didn't. Maybe you had a discussion your clients,
- 6 I don't know. I don't want to get into that.
- 7 That's not my area. I don't want to hear your
- 8 client conversations. But whether it's your
- 9 mistake or not, production, that's what's 10 happening.
- You're not getting another opportunity
- 12 months into this, months after this has been 13 propounded to now object. That's how -- that's
- 14 why there is -- why we're bogging down. So that
- 15 is done. I think we got the cross motion for
- 16 protective order already done, discovery plan --
- MR. STERN: Your Honor, just one point of 18 clarification to make sure I'm understanding the 19 deadline. On the 26th, that's going to be answers
- 20 to interrogatories and document request?
- 21 THE COURT: Yes.
- MR. STERN: Is that by 5:00 or midnight?

- 1 THE COURT: 5:00 p.m.
- 2 MR. LAWRENCE: And there's also request
- 3 for admissions, Your Honor.
- 4 THE COURT: All discovery. I don't know
- 5 what's confusing about that. All right. So we've
- 6 taken care of both motions to compel, it looks
- 7 likes. And the motion to enlarge, done. So this
- 8 takes us back then to motion three, which is,
- 9 again, the motions to schedule these -- excuse me,
- 10 the request to schedule certain things. All 11 right.
- 12 So we need to pick dates. So this is
- 13 where you all I think will come to some
- 14 understanding of what you need to do before these
- 15 hearings in terms of depositions if necessary,
- 16 right, and other discovery that might be
- 17 outstanding. Although, I'm hopeful that getting
- 18 these things by the 26th will help you get a lot 19 of this done.
- 20 So we can pick dates for your three
- 21 hearing dates okay? And the motion to dismiss and
- 22 disqualification motions are going to be heard on

- 1 one day, and we need a date for that. We've
- 2 already got Ms. Harris's motion scheduled, and so
- 3 this should follow that date. It doesn't have to
- 4 be very far after, but you need a day.
- 5 MR. STERN: Your Honor, I didn't hear you
- 6 say the motion to dismiss and motion for
- 7 disqualification, one day?
- 8 THE COURT: Yes. Yes. So it's going to
- 9 be after April 12th; right? May is starting to
- 10 look very terrible. We could probably do it on
- 11 May 12th. Is that possible?
- MR. McDONALD: Your Honor, I'm in trial in 13 the Eastern District that week.
- 13 the Eastern District that week.
- 14 THE COURT: Okay. That would be a no. 15 How about May 20th?
- 16 MR. McDONALD: That's available for me,
- 17 Your Honor. 18 MR. STERN: May 20th works for me, Your
- 19 Honor.
- THE COURT: Mr. Stern, that was good?
- 21 That's a yes?
- MR. STERN: Your Honor, could you do the

The 26th? 3 THE COURT: That's a Thursday. Anybody MR. STERN: That works for me, Your Honor. have a problem with that? MR. LAWRENCE: I'm serving, Your Honor, as 5 MR. LAWRENCE: That works for us. an expert witness at trial that week, but I'm 6 THE COURT: May 26th. almost certain I can contact counsel and have any MR. McDONALD: That's fine. THE COURT: That's going to be for a day, testimony taken out of order. 9 at most. It's going to be a trial, obviously an 9 THE COURT: Okay. So June 3rd for one day 10 evidentiary hearing on the disqualification. 10 for a plea in bar. Did we estimate that would be 11 Mr. McDonald seemed to think you might need 11 a day? 12 testimony on the dismissal. We'll wrap it all 12 MR. STERN: Yes, Your Honor. 13 together in one hearing, okay? So May 26th for 13 THE COURT: So then that brings us to 14 one day, bench trial. And then we're going to set 14 custodian pendente lite if it ends up being 15 the plea in bar. Let me see what I can find for 15 needed, but we might as well set it in any event. 16 you. 16 We're not looking at particularly good dates for 17 MS. HARRIS: Your Honor, are these 17 the next couple weeks at least following that plea 18 in bar, we're very busy, so let me see what I can 18 hearings as well my personal jurisdiction hearing 19 come up with for you. The best I can do for you 19 going to be remote? 20 THE COURT: They can be. Yeah. We could 20 is probably -- is June 30th, and that might be 21 fortuitous, I don't know, but June would be my 21 probably do the plea in bar -- do you want to try 22 to do the plea in bar the following day, May 27th? 22 next available for a couple of days, right? 92 MR. STERN: I have a pretrial conference MR. LAWRENCE: That's good for us, Your 1 the following day, Your Honor. 2 Honor. 3 THE COURT: Will it be all day? 3 THE COURT: Does that work for everybody? 4 MR. STERN: No, it's in the morning. 4 MR. STERN: June 30th for one day? 5 THE COURT: What time? THE COURT: Yeah. All right. So now that 5 6 MR. STERN: 8:30, but it's going to last a 6 -- now that you have some hard dates that aren't, 7 while because there's a lot that's going to be you know, next week, and if depositions are 8 covered in that. There's going to be several 8 required for these, then you all need to set a 9 motions that are going to be argued in all 9 date by which -- and I want you to do that with me 10 likelihood. 10 present -- a date by which all depositions or THE COURT: I see. It's not just a 11 other discovery related to these trials, because 12 conference? 12 I'm going to call them that, trials, will be MR. STERN: No, this is just -- I'm 13 accomplished. 14 expecting, it's not been decided yet, but there's So how many days before each of these 15 probably going to be a lot of issues decided. 15 trial dates do you want things done? So the THE COURT: All right. How about 16 motion to dismiss and the motion to disqualify is 16 17 May 31st? 17 May 26th; right? And I don't know if you intend MR. STERN: That's Memorial Day. 18 to use anybody's testimony for these things, but 18 MR. McDONALD: I think that's Memorial 19 19 you could technically potentially do depositions 20 Day, Your Honor. 20 if you needed before that. And I would have a

21 cutoff -- you could set a cutoff a couple of weeks

22 before that hearing date for any depositions that

THE COURT: It sure enough is. How about

21

22 June 3?

1 4 1 M 1 11 2021

Conducted on March 11, 2021

1 would be for discovery in those issues.

2 MR. STERN: Your Honor, if I may ask a

3 point of clarification?

THE COURT: Yeah.

5 MR. STERN: Because these motions are

6 being sequenced, are you -- if there's a

7 deposition taken let's say it as motion to

8 dismiss, the motion to disqualify, is that

9 deposition going to be limited only to that

10 subject matter and then there will be a subsequent

11 deposition, same witness --

12 THE COURT: No, I don't think you want to 13 do that.

14 MR. STERN: I don't think so either.

15 THE COURT: So here's the thing, and 16 again, I cannot stop everybody from being 17 strategic about what they do, but if you want to 18 know information from a particular person and 19 depose them for that purpose before any one of 20 these trials, I think it behooves you to schedule 21 them in relation to the hearing you think they're 22 relevant for.

However, I don't know all that, I'm not going to get into the detail of that, which is why I resisted Mr. Lawrence's motion to create some

4 sort of discovery plan for you all. I'm trying to 5 help you today if you feel like you need to get

6 some dates, hard dates, meaning deadlines, not

7 specific depo dates. If you all can come to some

8 understanding about when you have a cutoff so you

9 can get these things done and not debate it, then 10 I'm happy to help you. Otherwise you all need to 11 sort it out yourself.

MR. STERN: Your Honor, I think it's
13 implied in what you said, but I want to be clear
14 about that, I agree to a deadline for depositions.
15 We are not agreeing that the depositions have to
16 wait until the end of that period, because we
17 properly noticed depositions of Dan and Mike
18 White, and they were canceled only because of the
19 scheduling of that hearing without conferring with
20 us. So I want to make sure -- we're not agreeing
21 -- there's no order from the Court instructing the
22 parties that depositions get to wait until a

1 certain period of time?

THE COURT: No. It's more -- and I'm not

3 ordering this, I'm just trying to help you all

4 come to some understanding of what you think you

5 want to do with depositions. If you all want to

6 just handle it, handle it. But if you feel like

7 it would be important to create a deadline by

8 which depositions must be taken, then I can -- I

9 can help you with that or come to some

10 understanding about that. It doesn't sound like

11 there's a lot of interest in that, so that's fine 12 too.

MR. STERN: I'm thinking out loud, because 14 there will be, I assume, prehearing supplemental 15 briefing from the parties. I think we need to set 16 some deadlines for that so this way whatever 17 depositions may need to be done, we can measure 18 enough time for that supplemental briefing that 19 needs to be done.

20 THE COURT: Supplemental briefing on what?

21 MR. STERN: On each of the motions.

22 THE COURT: You intend to file additional

1 briefs?

5

94

MR. STERN: Especially if there's going to

3 be more evidence -- these are all evidentiary

4 hearings, I think there's a possibility for that.

THE COURT: Well, if the evidence has not

6 been adduced at a hearing before a judge, I don't7 know how you would -- here's the thing, guys, I

8 don't know. I'm not going to tell you not to file

9 bench briefs, I'm not going to tell you not to

10 file briefs. If you want a briefing schedule for

11 each of these hearings, let me know. Tell me that

12 you want that and we can set that because you

13 won't come up with a briefing schedule on your 14 own.

15 MR. LAWRENCE: I think that's (inaudible)

THE COURT: Mr. Lawrence, is a yes or a 18 no?

19 MR. LAWRENCE: That's a yes, Your Honor.

20 Because you did it for Ms. Harris's motion, I

21 think that's helpful. So for the -- we already

22 have the dates for motion to dismiss, and then the

THE COURT: I can't hear any of what

- 3 Mr. Lawrence is saying. So if you want it on a
- 4 similar schedule to what we did with Ms. Harris's
- 5 motion, the reply was due one week before and the
- 6 opposition was -- what was it?
- 7 MR. STERN: There's one week before as
- 8 well -- we can just do one week, one week,
- 9 one week, Your Honor, because there's a lot more 10 time here for these.
- 11 THE COURT: Okay.
- MR. STERN: I'm fine with that. I can't 13 speak for Greg.
- 14 THE COURT: Here's where we are then on 15 that based on the dates you've given me or that 16 we've agreed to. May 26th is the hearing date for 17 the first set of motions, the dismissal and the 18 disqualification. So on the 19th of May would be 19 -- I'm just working back one week is the reply, 20 and then one week before that, which is the 12th, 21 is the opposition, and the opening brief would be 22 the 5th. 5/5 for the opening brief, 5/12 for the

1 and we would respectfully say that the issue is

- 2 still open, and we do not keep deposing --
- 3 THE COURT: So here's how we're going to
- 4 leave it with depositions, all right? I'm not
- 5 presupposing or prejudging anything. If you all
- 6 are noticing deposition and is there is a problem
- 7 with the deposition, you need to promptly notice
- 8 it for a Friday notice and bring it to the Court's
- 9 attention. This happens. We've handled it
- 10 before. We can do it that way. It is possible to
- 11 do it that way. If that gets noticed and it's
- 12 scheduled, it will be heard on a Friday. Okay?
- 13 You don't have to pile in 20 motions and have a
- 14 special day, it's not necessary, okay?
- Now that we've gotten some traction on 16 some of these things, I'm hopeful that it will
- 17 help move you ahead. I'm not 100 percent
- 18 confident it will solve everything, but I think
- 19 some movement must occur at this point.
- 20 I think I've heard all the motions,
- 21 though; is that right? We've done them all --
- 22 whether I agreed with you or didn't agree with

1 opposition, 5/19 for the reply. Okay?

- 2 And then for the plea in bar, it looks
- 3 like it will be 5/27 for the reply, 5/20 for the
- 4 opposition, and 5/13 -- you're overlapping a
- 5 little bit with the other one, but there it is for
- 6 the opening brief. And then for your June -- your
- 7 later June trial, the reply is going to be the
- 8 23rd of June, 6/16 will be the opposition, and 6/9
- 9 is your opening brief?
- Does comport with everyone's calendars?
- 11 Do you all understand that?
- MR. LAWRENCE: Yes, Your Honor.
- 13 THE COURT: All right. So that gives you 14 some briefing schedules. And is there anything 15 else that we didn't resolve today?
- MR. LAWRENCE: With regard to the 17 depositions, Your Honor, I would just point out 18 that I disagree and I think it's incorrect what 19 Mr. Stern is stating regarding depositions or 20 subpoenas to his law firm. In fact, the Maryland
- 21 court denied that request for subpoena because of 22 the location, and there was briefing on the issue

- 1 you, I've heard them all, right, and resolved 2 them?
- 3 MR. STERN: I believe you've resolved 4 them.
- 5 MR. LAWRENCE: Yes, Your Honor.
- 6 THE COURT: So in terms of drafting
- 7 orders, I think I've given you -- I'm going to ask
- 8 Mr. Stern to draft the protective order that I
- 9 modified because you each have a template, but I
- 104:14.4: 1
- 10 think that since you were the original propounder
- 11 of the protective order, the confidentiality
- 12 agreement, you can write in the new language. I
- 13 would like that signed off on today.
- MR. STERN: Is there an email address we 15 can send directly to your clerk?
- 16 THE COURT: Yes, Ms. Lapinksy is my law 17 clerk. She's the one who sent you the link for
- 18 this meeting today or this hearing today.
- 19 MR. STERN: We didn't get the link 20 directly --
- 21 MR. McDONALD: Steve, I can share it with 22 you.

103 THE COURT: I want you all to send to each 1 it. I have confidence. It's nice to meet or see 2 other and sign today that confidentiality all of you. I don't know everyone one of you, but agreement with the revisions I've required. it's a pleasure to see you. Take care. 4 MR. STERN: What is the language that Your 4 MR. LAWRENCE: Thank you, Your Honor. 5 Honor wanted to modify the position, I just want MR. McDONALD: Thank you Your Honor. to make sure there's no --6 (Off the record at 11:52 a.m.) THE COURT: My suggestion was, nothing 8 herein precludes a producing party from seeking 8 9 additional protections from the court. That's 9 10 sort of standard kind of boilerplate to me. So 10 11 then I think I have Ms. Harris drafting an order 11 12 setting her hearing. I will ask Mr. Lawrence or 12 13 Mr. McDonald to write up the order setting these 13 14 other motions as we have just set them with the 14 15 briefing schedules as well, okay? 15 If they can send them around for 16 16 17 endorsement. And once it's signed off on, send it 17 18 to my law clerk for me to enter. And I think --18 19 and then I'll ask Mr. Stern to draft an order on 19 20 the -- basically the dates, the two week 20 21 turnaround on the motion to compel, we'll call 21 22 them motions to compel, or that could be also 22
